

## Buy a Microbe Proof Refrigerator.

Old refrigerators give lodgment to germs. So also do refrigerators that are damp. The

## Leonard Cleanable Refrigerator

is built on the latest and most scientific principle. A microbe simply can't live in it.

It will stand the "match test" for dampness—the simplest and surest test you can give for the greatest defect a refrigerator can have. Leave a match in it all night and it will strike as good as ever in the morning.

The Leonard is made to be taken apart and cleaned.
